Troubleshooting

"Error: API key not found"

Solution: Check that ANTHROPIC_API_KEY is in .env.local and restart the dev server

"Port 3000 already in use"

Solution: `npm run dev -- -p 3001` (use port 3001 instead)

"Content generation is slow"

Solution: This is normal! Claude takes 3-5 seconds. This is how it works.

"Nothing happens when I click Generate"

Solution:

1. Check browser console (F12) for errors
 2. Make sure API key is valid
 3. Restart dev server: Ctrl+C then `npm run dev`
-
